

Levasil CC503

Colloidal silica

Levasil CC503 is an alkaline, aqueous dispersion of colloidal silica that is approximately 50% solids by weight. The amorphous silica particles are surface modified and carry a negative surface charge. The silica particles are discrete, have a smooth, spherical shape, and are present in a wide particle size distribution. The particles have been surface modified with silanes for optimized performance as emulsion stabilizer. The physical appearance of the dispersion is a white liquid, slightly more viscous than water. Levasil CC503 is produced for world-wide distribution.

CAS number
1239225-81-0

Characteristics

Silica	50 wt%
Density	1.4 g/cm ³
Average Particle Size	34 (wide particle size distribution) nm
pH	10
Viscosity	10 cP
Ethanol	1.3 wt%

Applications

Levasil CC503 is an optimised product for particle stabilization of oil in water emulsions (Pickering).

Storage

Levasil CC503 should be transported and stored at a temperature of 5-35°C (40-95°F). For packaged goods, any translucent packages should be stored out of direct sunlight or bright light. Under recommended conditions, Levasil CC503 has a shelf life of at least twelve months after production.

Packaging and transport

Levasil CC503 is available only in packaged quantities.

Safety and handling

Before handling this material, review the corresponding Material Safety Data Sheet. Colloidal silica products are aqueous dispersions of amorphous silica. Colloidal silica is not classified as harmful, but as mildly irritating. Because the products can have a drying effect on the skin, protective gloves should always be used. In case of skin contact, wash the area of contact with plenty of water. The use of safety glasses is always recommended. In case of eye contact, rinse with large amounts of water and seek professional medical advice.

All information concerning this product and/or suggestions for handling and use contained herein are offered in good faith and are believed to be reliable. Nouryon, however, makes no warranty as to accuracy and/or sufficiency of such information and/or suggestions, as to the product's merchantability or fitness for any particular purpose, or that any suggested use will not infringe any patent. Nouryon does not accept any liability whatsoever arising out of the use of or reliance on this information, or out of the use or the performance of the product. Nothing contained herein shall be construed as granting or extending any license under any patent. Customer must determine for himself, by preliminary tests or otherwise, the suitability of this product for his purposes. The information contained herein supersedes all previously issued information on the subject matter covered. The customer may forward, distribute, and/or photocopy this document only if unaltered and complete, including all of its headers and footers, and should refrain from any unauthorized use.
