

# Levasil SP3089

## Colloidal silica

Levasil SP3089 is an alkaline, aqueous dispersion of colloidal silica that is approximately 50% solids by weight. The silica dispersion is sodium stabilized and the amorphous silica particles carry a negative surface charge. The silica particles are discrete, have a smooth, spherical shape, and are present in a wide particle size distribution. The physical appearance of the dispersion is a white liquid, slightly more viscous than water. Levasil SP3089 is produced for world-wide distribution.

CAS number  
7631-86-9

### Characteristics

Silica	50 wt%
Density	1.4 g/cm <sup>3</sup>
Specific surface area	80 m <sup>2</sup> /g
pH	9.5
Viscosity	8 cP
Na <sub>2</sub> O	0.2 wt%

### Applications

Levasil SP3089 is a speciality product used primarily as a polishing agent.

### Storage

Levasil SP3089 should be transported and stored at a temperature of 5-35°C (40-95°F). If the silica dispersion is allowed to freeze, the silica will irreversibly precipitate. For bulk storage, the tank should be sealed and constructed of plastic, fiberglass reinforced plastic, or stainless steel. For packaged goods, any translucent packages should be stored out of direct sunlight or bright light. Under recommended conditions, Levasil SP3089 has a shelf life of at least twelve months after production.

### Packaging and transport

Levasil SP3089 is available in bulk and packaged quantities. Bulk shipping and packaging sizes can vary by region.

### Safety and handling

Before handling this material, review the corresponding Material Safety Data Sheet. Colloidal silica products are aqueous dispersions of amorphous silica. Colloidal silica is not classified as harmful, but as mildly irritating. Because the products can have a drying effect on the skin, protective gloves should always be used. In case of skin contact, wash the area of contact with plenty of water. The use of safety glasses is always recommended. In case of eye contact, rinse with large amounts of water and seek professional medical advice.

All information concerning this product and/or suggestions for handling and use contained herein are offered in good faith and are believed to be reliable.
